03417792658 Lahore, Pakistan

noorulain.29fatima@gmail.com linkedin.com/in/noor-ul-ain29999999

## OBJECTIVE

---

Full Stack Web Developer with hands-on experience in web development, automation (Selenium), and AI automation workflows. Skilled in building full-stack applications, web scraping systems, and backend integrations. Seeking opportunities to contribute to real-world scalable systems and automation-driven projects.

## EDUCATION

---

|                                                                              |                |
|------------------------------------------------------------------------------|----------------|
| <b>BS Software Engineering</b> , COMSATS University Islamabad, Lahore Campus | 2024 – Present |
| <b>FSc (Pre-Medical)</b> , Chenab College Jhang                              | Completed      |

## SKILLS

---

|                     |                                                               |
|---------------------|---------------------------------------------------------------|
| <b>Frontend</b>     | HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS        |
| <b>Backend</b>      | Flask, FastAPI, Node.js                                       |
| <b>Database</b>     | MySQL, SQL                                                    |
| <b>Programming</b>  | Python, Java, C, OOP, Data Structures & Algorithms            |
| <b>Automation</b>   | Selenium, Web Scraping, Data Extraction, Automation Workflows |
| <b>Tools</b>        | Git, GitHub, VS Code, PyCharm, IntelliJ IDEA                  |
| <b>Other Skills</b> | Problem Solving, Debugging, Team Collaboration                |

## EXPERIENCE

---

**AI Automation Intern, Nexa Agent (Ongoing)** Working on AI-based automation workflows, data extraction systems, and API integration tasks.

- **Freelance Automation Developer** Developed automation solution for a client to extract and process university data using Selenium-based scraping systems. Improved efficiency by automating manual data collection workflows.
- Built full-stack applications integrating frontend, backend, and database systems.
- Implemented REST APIs, server-side logic, and database connectivity.
- Used Git and GitHub for version control and collaborative development.

## PROJECTS

---

- **CUI Cafe Management System.** Developed an online cafe order and payment processing system.
- **Stationary Inventory Management System.** Built a web-based system to manage inventory, generate reports, and track transactions.
- **Allergy Detection System.** Designed a system to detect and manage food allergy-related alerts.
- **Mobile Price Tracker.** Developed a web scraping-based system to collect and compare mobile prices from multiple websites in real time.
- **Freelance Automation Project.** Extracted and automated data of 1072 universities using Selenium-based automation workflows.

## EXTRA-CURRICULAR ACTIVITIES

---

- Participated in inter-school and inter-college competitions.
- Developed teamwork, leadership, and communication skills through academic activities.

## LEADERSHIP

---

- Lead academic project teams and coordinated development tasks.
- Assisted peers in full-stack development and automation-related projects.
